~~What Lives In A Shell~~

What Lives in a Shell? by Kathleen Weider Zoehfeld, is a non-fiction book about animals that live in shells, such as land snails, turtles, hermit crabs, clams, and scallops. The book explains that an animal's shell is like it's home in that it lives in it and it protects their soft bodies.

inside of shells. Many of the animals that reside in shells also reside in or near the water. Some animals continually upgrade their shells to larger accommodations while others remain in the same shell their entire life. Shells offer warmth and protection for the animals that use them as their home.

~~What Creatures Live in Shells?~~

A house is a home for you, a nest is a home for a bird, and a cave is a home for a bear. But for some animals a shell is a home. Snails and turtles and crabs and clams all have shells that act as their homes and

The razor shell lives under the sand, using its powerful foot to dig to a safe depth. Its digging activity comprises six stages, repeated cyclically. A digging cycle involves integration of the muscular foot (which takes up a large part of the body) with the opening and closing of the valve and one end.
