4 Red Lights -
Xbox 360 -
iFixit

The most common cause for a red light on the power supply is an overheated power supply. Letting the power supply

Get Free Xbox 360 4 Red

cool often
corrects this
problem. Turn
off your Xbox
360 console.

Unplug the power
supply from the
electrical
outlet and
disconnect the
power supply
cord from the
console.

Red ring of death is an issue that only happens to the original Xbox 360 machine. Red ring means the four LED lights that are located around the Xbox 360's power button. When the console is

Get Free Xbox 360 4 Red

working normally, the upper-left quadrant of the ring is solid green. While, if there is something wrong with the console, 1 to 4 of the LED lights will flash red.

The red ring of
death, also
called RRoD in
online slang,
stands for the
four LEDs
surrounding the
Xbox 360 power
