Overview. This challenging
and provocative book argues
that there was in ancient
Israel a considerable degree
of overlap between the
worship of the sun and of
Yahweh—even that Yahweh was
worshipped as the sun in
some contexts. As an object
created not by humankind but
by God himself, the sun as
an object of veneration lay
outside the bounds of the
second commandment and was
considered by many to be an
appropriate “icon” of Yahweh
of Hosts.
